

SERVANT SOLUTIONS RETIREMENT PLAN FUND PERFORMANCE

Below are the investment returns for various periods through the first quarter of 2026. Also illustrated below, within the shaded area, is a historic representation of investment returns for various periods. This information (shaded area) is intended to be general information illustrating the long-term performance of the investment strategies employed by Servant Solutions Retirement Plan options and not an indication of actual performance of the Retirement Plan, neither past nor present nor future. These illustrated returns may differ slightly as compared to what actual Retirement Plan option returns would be, due to administrative structure and cost. The S&P Target Date Index Series and the individual mutual fund benchmarks (Morningstar Large Value, etc.) provide one measure of comparing investment performance.

The Principal Guaranteed Option earnings rate is set at the net crediting rate of 4.7% starting June1 through November 30, 2026
Plan expenses are deducted earnings, making the rate of return slightly less than 4.7%.
