Retirement Plan ANALYTICS

Fund Objective

The investment seeks to provide investment results approximating the aggregate price and dividend performance of the securities included in the MSCI EAFE Index. Under normal market conditions, the fund will invest substantially all, and normally at least 80% of its total assets in the equity securities (primarily common stocks and stock index derivatives) included in the MSCI EAFE Index, in weightings that approximate the relative composition of the securities contained in the MSCI EAFE Index.
